P – PRODUCTS

A wide range of more than 4500++ products to select from, we have CE, EN, NIOSH, NEBOSH, ISO certified products to select from. Thus catering for requirements of your industrial / commercial/ residential standards.

T – TRAINING

We under take Govt. certified training programmes. We have specially structured programmes for professionals, corporates, home maker, students etc.

D - DESIGNING

We undertake designing solutions with respect to fire and safety for industrial, commercial and residential premises. We also deal in SITC & turn key projects.

A – AMC & Audit

We also undertake AMC & Audits for industrial, commercial and residential premises.

ABOUT US

OUR VALUES.

“Innovation & Affordability” : To provide best in the Class Products, AMC & After Sales Service making an accident free society at an affordable price .

OUR MISSION.

“Team Player & Accountability” : To acquire & maintain global leadership in the chosen areas of business with care for society & environment.

OUR VISION.

“Positive Growth & Adaptability” : To emerge globally as the first choice for to “Work With” & “Work For” .

COMPLETE DESTINATION FOR ALL TYPES OF FIRE PROTECTIVE GEARS & GADGETS IN

- Personal Protection.
- Fire & Safety Protection.
- Crisis & Disaster Management.
- Smoke & Gas Detection.
- Supply, Installation, Testing & Commissioning (*Turn Key Projects*)
- AMC, of Portable and Fixed Fire Fighting Equipment and Accessories *(Both : International & ISI certified equipment).*

AUDITS/ ADVISORY – CONSULTING/ TRAINING – REFRESHER COURSES

- Process Safety Engineering.
- Fire Protection Engineering.
- Functional Engineering.
- Operational Safety Engineering.
- HSE Design Engineering & Project EHS Support.
- HSE Technical Trainings.
- Process Optimisation etc.

GLOBAL BRANDS

A Leading company from **USA** with expertise in Confined Space Entry Products like **Flame Proof & Explosion Proof Blowers, Venturi, Breathing Air Compressor, NIOSH Approved Filters, Sand / Shot Blasting Hoods and Climate Control Vest, Auto Darkening Welding Helmet with Supplied Air Line systems.**

For more details click on the following link <http://www.allegrosafety.com/>

A Company from **USA** with specialisation in **Gloves** and for Very High Voltage Electrical Operations under various climatic conditions

For more details click on the following link <http://www.regeltex.com/>

Worlds' largest producer & supplier of Chemical Protection Clothing like **Pro-Shield Tyvek, Tychem-C, Tychem-F, Tychem-TK Tychem Reflector and Flame Retardant Clothing & Fire Fighting Suit Nomex.**

For more details click on the following link <http://www.dupont.com>

A leading brand from **Germany** in Gas Detection & Protection Systems providing solutions like **Portable Gas Detectors & Tubes, Fixed Gas Detection System, Respiratory Equipment, Escape Sets, Breathing Apparatus, Alcohol Detectors & Drug Test and Thermal Imaging Camera etc.**

For more details click on the following link <https://www.draeger.com>

Leading Company from **USA** having expertise in Pollution Control System & manufactures / Supplies Secondary Spill Containment Solutions to various situation and *Ultra Ever Dry* – **weather protection coating solution.**

For more details click on the following link <http://www.spillcontainment.com/>

A product of Ultratech International, this is a unique, Surface Coat which is **Hydrophobic, durable, Flexible, Substrate Compatibility, Resistant** (Abrasion, Corrosion, Oil Solvent & UV). It has a wide application like Electronics, lens, cars, glasses, automobiles, Industrial equipment's, signs etc.

For more details click on the following link <https://www.gentoo coatingstore.eu/>

GLOBAL BRANDS

A division of *Exuro Medical LCC* from **USA** providing *Burn First Aid solutions* in the form of **Dressings, Blankets, Gel & Burn Care kits**.

For more details click on the following link <https://www.burnfree.com/>

Leading Company from **USA** having a wide range for *Nitrile and Powder Free Gloves*. This provides All round protection from strong detergents, oils, fuel, grease, many chemicals and solvents.

For more details click on the following link <https://www.coleparmer.com/>

A Company from **USA** with specialisation in *Gloves & Apron in cryogenic applications*. Gadgets that can be used extreme cold services. (Sub-zero up to - 160°C Temperatures)

For more details click on the following link <http://www.tempshield.com/>

A Globally acclaimed brand in SYSBEL commits to the exploration and manufacture of world's leading products within **Safety Containment Systems (SCS), Spill Prevention, Containment & Control (SPCC) and Eye Wash Systems (EWS)**.

For more details click on the following link <http://www.sysbel.com/>

A leading specialised textile manufacturing Company from **India** providing solutions for *Flame Retardant Clothing* for **Oil & Gas, Petrochemical & Metallurgy sector applications**.

For more details click on the following link <http://www.sysbel.com/>

A Company from **USA** with specialisation in *Portable Lighting Solutions in Hazardous Area Applications* presenting full range of Safety Torches with Flame Proof and Explosion Proof construction.

For more details click on the following link <http://www.flashlight.com/>

GLOBAL BRANDS

TEIJIN

Internationally certified wide range of PPE and Overalls. Hydrophilic Finish (HF) a moisture wicking finish developing extra comfort *in Hot & Humid climate*.

For more details click on the following link <https://www.teijin.com/>

A leading specialised textile manufacturing Company from **India** providing solutions for PPEs, Flame Retardant Clothing for **Oil & Gas, Petrochemical & Metallurgy sector applications**.

For more details click on the following link <http://unisafeservices.com/>

An **UK** based firm. The **ultimate Lighting Solutions** for **various zone locations of portable, temporary, power distribution system of lighting**.

For more details click on the following link <https://www.wolfsafety.com/>

A product for **Reliance group** brings a wide variety of Footware Protection. **A complete range of safety shoes which are robust, safe & stylish.**

A Company from India; Viraj Syntex is a specialist manufacturer of Fall Protection, Fall Restrain, Lifting devices; **highly useful in Lifting-shifting & Confined Space Rescue activities.**

For more details click on the following link <http://www.virajsafetyfirst.com/>

A USA based Company which specializes in Colorimetric Diffusion Badges like **ChromAir & SafeAir** thus giving real-time detection of chemical threats and levels is the cornerstone to a safe working environment in Industrial Settings.

For more details click on the following link <https://www.morphitec.com/>

TRAINING & REFRESHER COURSES

RADCORPS FIRE & SAFETY PVT. LTD.

WITH UNISAFE TRAINING SOLUTIONS

Launches Multi-optional & Flexible Training Program on

FIRE PREVENTION & FIGHTING

Learn To Succeed

HALF DAY TRAINING

Course Content

- Introduction to Chemistry of Fire
- Fire Classification
- Fire Prevention & Protection basics
- Portable & fixed firefighting installations
- Responding to Fire Emergency
- Hands-on with use of Extinguishers.

Duration -Half Day

Award -Certification of Participation.

Medium -English, Marathi, Hind

FULL DAY TRAINING

Course Content

- Chemistry of Fire
- Fire Classification
- Fire Prevention & Protection
- Active & Passive fire protection
- Roles & Responsibilities of FF Team
- Portable & fixed firefighting installations
- Introduction to Rescue Methodologies
- Responding to Fire Emergency
- Hands-on with use of Extinguishers, FH components.

Duration -One Day

Award -Certification of Competency.

Medium -English, Marathi, Hindi

Who should attend?Practically everyone but specifically

- ✓ Shop-floor Employees
- ✓ Fire Fighters
- ✓ Emergency Response Team Members

Program Benefits

- ✓ Participants would know the importance of 'Prevention'
- ✓ Choose & Present right response strategy leading to loss minimisation.
- ✓ Maximise the difference between Life & Death
- ✓ Confidence & Peace of Mind
- ✓ Offers flexibility of using your material for practical training.

Venue – Your worksite (Enables maximising participation).

Batch – 25 participants/batch (Max)

Also providing customised programmes for Corporates, institutions, schools etc

Directorate of Industrial Safety & Health (DISH) certified

Service

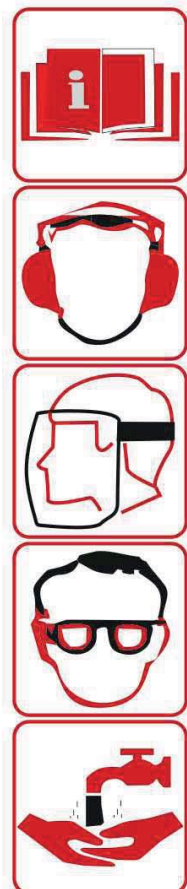

Training Solution Provider:

An organization chooses best of the available professionals for different tasks in their set-up. However, qualification & experience alone cannot make a candidate to be performer to the expectation of the organization. They need to be inducted into the "Culture" of one's organizational setup. Training the new & for that matter even established employees is by far is best methodology to accomplish best of results and performance from individual. In today's world "Eco-Sustainability" & "Safety" are the buzzwords irrespective of the sector the organization is working with.

Safety training is the key element in the prevention of work-related injuries, illness, and fatalities. When properly trained on safety procedures, employees understand the importance of workplace safety, prevention of an incident in the workplace by following work workplace safety procedures and respond quickly if presented with a dangerous situation.

Not only because of these intangible benefits but because of also every organization is legally responsible for providing the safety training mandated for their industry by Regulatory Authorities. Maintaining records that details course completion dates and certification status of employees is crucial because it helps pinpoint the safety training requirement that still needs to be addressed.

Radcorps

AUDIT, TRAINING & REFRESHER COURSES

"TRAINING MANAGEMENT SYSTEM" - A customized solution

As a best management practice, we follow the four stage process for 'Training' as defined by the ISO-10015: Guidelines for Training. This automatically helps organisation in strengthening their ISO program, those have already accredited with ISO Certification and also for those which are in process of ISO certification. As your training partner, our team shall work collaboratively with you to develop training solution that will meet the operational and strategic needs of your business. We shall provide most efficient and effective training solution for you by:

- ▶ Understanding your business including background, nature of your business, and structure as well as your training expectations, concerns and challenges.
- ▶ Determining the gap in knowledge and skill sets required of your learners, if required.
- ▶ Developing and providing the content that suits your requirement.
- ▶ Assessing the efficacy of the provided solution.

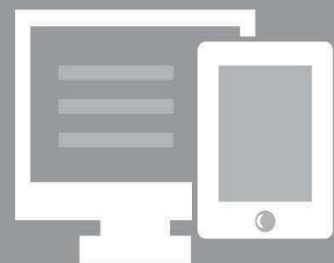

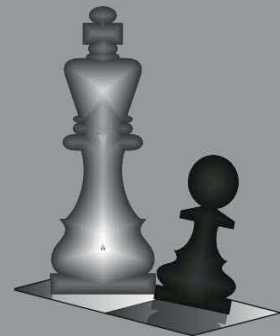

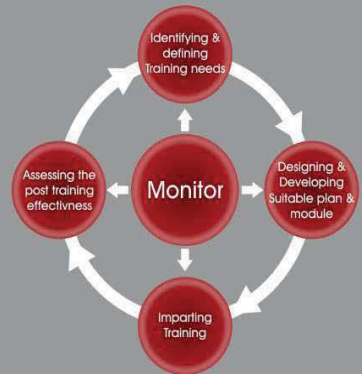

A comprehensive solution for all your training needs comprising of following elements are being offered. However, we offer enough flexibility for an organisation to choose from any of the element individually or multiple to get support from us.

- ▶ Training MIS development
- ▶ Competency setting, assessment & GAP analysis
- ▶ Training needs assessment & calendar development.
- ▶ Customized training module
- ▶ Training and Evaluation
- ▶ Trend analysis & management reports
- ▶ Training statistic & KPIs

Software Tools

To support our rigorous training management process, we offer following software products which would obviously meet & exceed your requirements for sustainably managing your MIS by providing assistance at different stages.

- ▶ Training MIS package- Customized software package covering all aspects of all the training cycle.
- ▶ Training modules- Ready to launch, self learning style topic based packages.

Fire & Gas Detection - Consultancy

R offers end-to-end technical and engineering services to optimise performance in the areas of Fire & Gas compliance, operations and engineering to clients in the chemical process, petrochemical, oil & gas, power and pharmaceuticals industrial sectors to list a few. Proficiencies

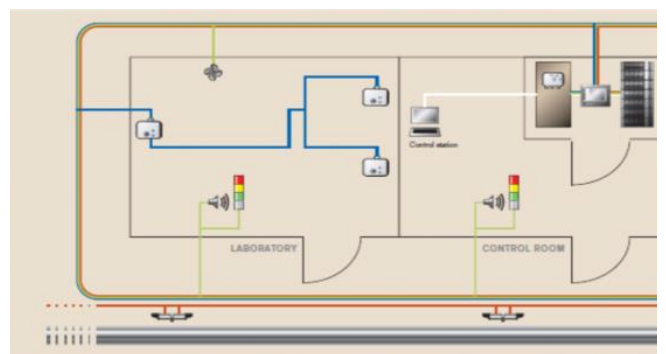

R has a very strong team of Fire & Gas experts with a broad range of design and operational experience across all industrial sectors. It allows us to offer hands-on and logical guidance to process operators / users and assistance to translate a recommendations into constructive solutions.

R with back-hand support from world renowned names in Fire & Gas detection systems; present our support in all stages of operations; new projects and modifications, supporting and improving existing operations and the important areas of improving the safety and environmental performance of operations.

Fire & Gas systems play a pivotal role in safeguarding people, processes, assets and the environment through continuous monitoring emissions / releases like heat, smoke and toxic or combustible gas levels within operating zones, and provide ALERT of an abnormal situation before it becomes an impending hazard.

We offer support in following areas....

- ? F&G Design Philosophy**
- ? Fixed Fire & Gas detection system design**
- ? Layout & Specifications**
- ? F&G Mapping studies**
- ? F&G Cause & Effects matrix**
- ? Installation & Commissioning**
- ? Other customised services**

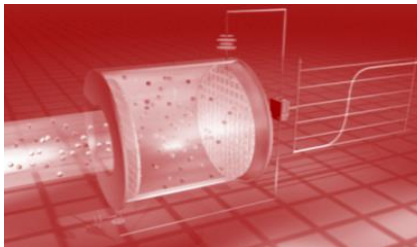

Fire & Gas Detection - Solutions

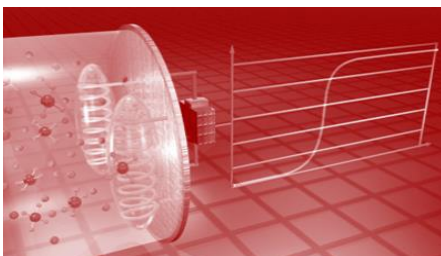

Catalytic Sensor

The working principle of these sensors is based on flammable gas oxidation on the surface of a catalytic element with electric heating

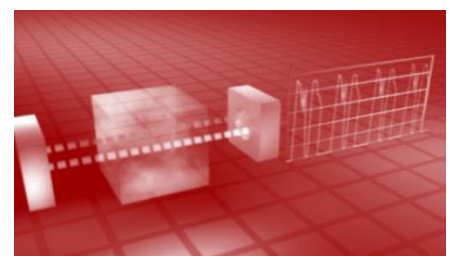

Electrochemical Sensor

The working principle of these sensors is based on the measurement of the current established between a sensing electrode

Infrared Sensor

The working principle of these sensors is based on the gases absorb light energy at a specific wavelength, typically in the infrared range.

Toxic Detection

Combustible Detection

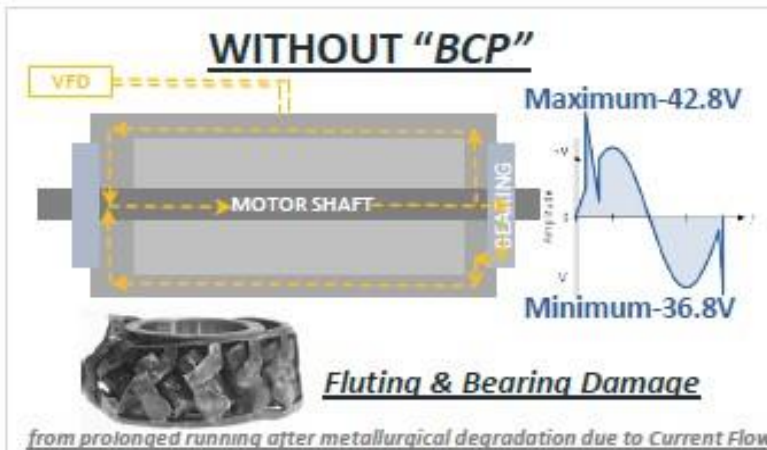

Flame Detection

Controllers

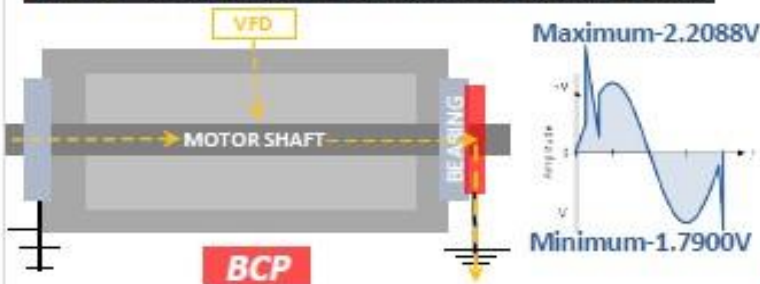

Bearing Current Protector – “BCPs”

Disadvantages

- *Under Utilized Bearing Life*
- *Increased Down Time & Lags*
- *Increased Total Ownership Cost*
- *Exponential graph for vibration levels*
- *Bearing failure...etc*

WITH “BEARING CURRENT PROTECTOR”

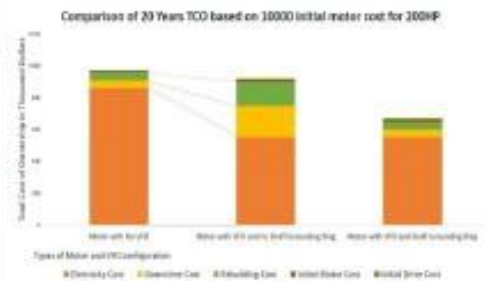

Advantages

- *Exponential reduction in damage to Motor & Bearings*
- *Phenomenal reduction in Total Ownership Cost.*
- *Safety of Men & Material assured*

Application:

- Electrical Generators,
- Rudder Control Propulsion Gearboxes,
- Fuel Pumps,
- HVAC Motors,
- Bow Thrusters,
- Refrigeration Chillers,
- Compressors,
- Desalination Pumps,
- Potable Water Pumps,
- Ballast Treatment Pumps,
- Black Water Tank Pumps,
- Onboard Cranes and Winches,
- Hold Hatch Motors,
- Anchor Winch Motors,
- Materials Handling Pumps and Conveyors...etc

TOTAL OWNERSHIP COST

VFD reduces Electricity cost but increases Downtime and Rebuilding Cost

“BCP” a must for VFD driven motor

- *Reduced Overheads Cost, Enhanced Productivity Optimisation, & Peace of Mind assured*

Fire & Gas Detection - Consultancy

Benefits to you...

Working with 'Radcorps' process safety engineering services, fetches wide ranging benefits including:

- ✓ Ready access to operationally focused experienced engineers
- ✓ Association to specialists in other engineering disciplines
- ✓ Pragmatic approach
- ✓ Experienced safety engineering team at your disposal
- ✓ Efficient and effective working supported by leading edge approaches and tools including our indigenous tools for safe and reliable process calculations

Other capabilities...

- Fire Protection Engineering
- Process Safety & Loss Prevention Engineering
- Functional Safety Engineering
- Construction Safety Management
- HSE Design Engineering & Project HSE Support
- HSE & F Technical Trainings
- Process Optimisation

Our Clientele

and many more.....

Thankyou
